CURES AND COMFORT FOR

THE BED-RIDDEN.

—BY

Holloway's Ointment.

This wonderful Ointment is a specific cure for all the most distressing diseases of the skin, and is equally efficacious in all cases of rheumatism, neuralgia, and all other painful affections of the system. It is a most valuable remedy for all the diseases of the skin, and is equally efficacious in all cases of rheumatism, neuralgia, and all other painful affections of the system.

his class of diseases may be cured by using this Ointment, three times a day, then the patient will find immediate relief. In all cases of rheumatism, neuralgia, and all other painful affections of the system, it is a most valuable remedy.

Shipping Intelligence.

PORT OF VICTORIA, BRITISH COLUMBIA.

ENTERED
June 18—Ship Ocean Queen, Smith, San Juan.

CLEARED
June 18—Ship West, Duke, San Juan.
Ship Lady Franklin, Triton, San Juan.

Supreme Court

Before His Honor Chief Justice Needham.

FRIDAY, JUNE 18.

Dussol vs. the B. C. & V. I. Spar, Lumber & Sawmill Co.—This suit was continued yesterday. The evidence of Capt. Swanson, for the defence, was taken; it abounded in nautical and technical phrases and possessed nothing of interest to the general reader. The captain's evidence went to show that with the exercise of skill and caution the Rosalia might have escaped wreck.

Juan Endeiza, was recalled. He swore that the ship Fanny was taken in tow by the Isabel in the face of his (witness') protest. Mr. Robertson, for the defence, moved for a non-suit, claiming that no evidence had been produced to warrant the sending of the case to the jury.

The Chief Justice declined to grant a non-suit, and said that the plaintiff had produced sufficient evidence to lay before a jury.

Mr. Robertson then opened the case for the defence in a powerful and eloquent address to the jury, claiming that the defendants were in no wise responsible for the disaster, which occurred in consequence of the ignorance or negligence of the captain of the Rosalia.

Capt. Phamphet, captain of the Isabel, was then called, and proved that he took the Fanny in tow with the full consent of the captain of the Rosalia.

The Court was here adjourned until Saturday at 11 o'clock a. m.

THE SAN JUAN TRAGEDY.—The shooting of Mr. Augustin Hibbard by his partner Mr. Watts, is a very melancholy affair. Hibbard resided some fourteen years on Puget Sound. He was one of the earliest pioneers who found their way here in 1835 and traded extensively between Victoria and ports on the Sound. By birth he was a Canadian, being closely connected with the Hibbards of Montreal. His brothers are the extensive manufacturers of India rubber goods in that city. His age was about 40. The past seven or eight years he has been concerned in the San Juan lime kiln of which he was principal owner. Watts owned a farm, in partnership with a man named Decker, near Soda Creek, which he lately sold and bought an interest in Hibbard's kiln. The origin of the quarrel which led to the killing of Hibbard is variously stated, but it is believed that Watts became dissatisfied with his business prospects, and that bad blood existed between the two, which ended on Thursday night in the killing of Hibbard. An inquest was to have been held yesterday.

SICK OF IT.—L. Minerve [of Quebec] has received gloomy accounts as to the condition of Canadians who emigrated to the States, from a gentleman who has returned from thence. A number became poorer than before; many more would return at once if they had money. Wages are not much higher than in Canada and the cost of living double. Those few who have acquired a competence propose to return to Canada at once. It is stated that out of 1000 laborers engaged in Canada and set to work making bricks at Springfield only the strongest were chosen on arrival, and the rest, to the number of thirty, were left to shift for themselves without money or employment, and the same treatment awaits other squads that may follow.

THE LATE GOVERNOR.—Funeral sermons will be preached at the Episcopal Churches throughout the Colony on Sunday. At Christ Cathedral, it is probable the Ven. Archdeacon will preach in the morning; and in the evening, at St. John's, the Rev. Mr. Jenne. At St. Andrew's, Rev. Mr. Cayo will preach a sermon devoted to the late sad event. Appropriate services will be held at New Westminster, Nanaimo, etc.

The steamer Enterprise did not get off till 12 o'clock yesterday, Capt. Swanson having been summoned to give evidence in the ship Rosalia suit at the Supreme Court. Among the passengers were Mayor Holbrook, W. J. Armstrong, Capt. Fleming, Mr. Claudet, Mr. Nason and ten returning White Pines who are going back to the fresh fields of Cariboo, having been heartily disgusted with the outlook at Silverado.

FROM NANAIMO.—The Sir James Douglas, Capt. Clarke, arrived from Nanaimo and way ports yesterday afternoon. She brought 20 passengers and a quantity of produce, including live stock, skins, &c. There were no vessels at Nanaimo when the Douglas left; the Otter coaled there on Thursday, and left for her destination about eight o'clock the same evening.

DISTRICT GRAND LODGE.—The officers and members of the District Grand Lodge, E. R. and the masters, officers and members of the Lodges at Victoria under this jurisdiction, are summoned to meet at Masonic Hall at 9 a. m., on St. John's Day, the 2nd instant, and attend the R. W. D. G. Master to divine service at Christ Church Cathedral.

The Victoria Lodge I. O. of O. F. were bequeathed \$250 by the late John C. Keenan, in aid of the Widows' and Orphans' fund.

The steamship Active will be due here on Tuesday morning next.

THE CHAMBER OF COMMERCE AND FREE PORT.—The News makes an excellent suggestion to the Chamber of Commerce, which we hope that body will act upon. Our contemporary proposes that the Chamber shall present an address to Governor Muirgrave, shortly after his arrival, in which they shall state their opinion on Confederation, Free Port, and other topics of the day vitally affecting the mercantile interests. Some time ago we proposed that the Chamber should open negotiations with Ottawa upon the basis of Free Port. A late sad event and the appointment of an ardent Confederationist to the position of Governor of the Colony, renders that course unnecessary. The merchants can conduct their negotiations through the Governor.

DEPARTURE OF THE STEAMER—TREASURE SHIPPED.—The steamer Gussie Telfair sailed at daylight yesterday morning for Portland. She carried a few passengers and \$87,750 47 in gold, shipped by Wells Fargo & Co. on account of selves and the Bank of British North America and Bank of British Columbia.

MASONIC PICNIC.—The Brethren of the Masonic Lodges, accompanied by their friends, have chartered the steamer Enterprise, and by the kind permission of Captain Delacomb, R.M., will proceed to the British Camp on San Juan Island, on St. John's day, 24th inst. There will be singing, dancing and general enjoyment. Tickets may be obtained of any member of the committee at prices named in the advertisement.

PUBLIC RECEPTION.—Governor Muirgrave, it is believed, will come via New York and the Pacific Railroad, in which case he should be here on or about the 18th proximo at furthest. Would it not be well if our public body's met to take early counsel as to the advisability of giving His Excellency a reception befitting his high rank?

THISTLES.—Our vacant lots are likely to produce a plentiful crop of thistles if the Corporation do not stir themselves and have them uprooted. Why can't the thistles be trotted out with instructions to cut them down? Two or three days' work with hoes would do the business.

COUNTRY STORE FOR SALE.—A country store in a most desirable and improving neighborhood is offered for disposal by Messrs. Promis & Saunders, grocers, of Johnson street, from whom full particulars may be had. To an energetic man a chance is offered that seldom occurs in a new country.

The ship Adela Carlo is on the way from San Francisco to load with lumber at the V. I. & B. O. Mills.

The Rifle Butts—A word to the Wise.

EDITOR BRITISH COLONIST.—As persons, not members of the Volunteer Corps, have been improperly firing at our targets, I wish to caution the public that persons who do this will be prosecuted under the "Volunteer Ordinance, 1869," and will render themselves liable to a fine of twenty dollars. When firing takes place, a semaphore with the word "Danger" on it will be erected on Clover Point, when all persons are cautioned to keep off the point.

Yours, &c.,
F. J. ROSCOE,
Lieut. Commanding V. R. V.
Victoria, V. I., June 18, 1869.

The Jealousy of Girls.

From Every Saturday.
Girls are awfully jealous of each other. I should call this the girls' distinctive fault. See them when they are introduced or when they first meet at a ball or croquet party; see how coldly critical they look at one another, how insidiously their eyes rove over every portion of their rival's dress; read in their faces the result of their scrutiny. "You think you have done it very well, but you have made a perfect fright of yourself, and I am much better than you!" Watch their disdain of the more admired amongst them, and how excessively naughty for attracting so much attention they think Ada or Amy is, about whom the young men cluster. How bold she is! how affected she is! and O! how ugly she is! Sometimes, if they are deep, they will overpraise her enthusiastically; but the ruse is generally too transparent to deceive any one, and simply counts for what it is—a clever feint that does not answer. It is quite a study to watch the way in which girls shake hands together, or take hands in the dances. The limp, cool impertinent way in which they just touch palms, then let their arms fall as if paralysed tells a volume to those able to read the lettering.

Paraguayan News.

New York, June 11.—European mails have the following Paraguayan news:
Paraguay advances by mail from London state that a Brazilian regiment of cavalry in the advance guard of the allied armies was surprised and entirely destroyed by Lopez troops.

The expeditionary corps which landed at Rosario, was surprised and in great part killed or captured by the Paraguayans.
A gunboat towing the Ochata up the river Titiary with provisions for the army, was boarded by the Paraguayans, who killed the allies and took possession of the cargoes of both vessels.

The allied armies were still in Ligne.

An affecting occurrence has just taken place in Paris. Madame de Marcueil, niece of the Duchess de Cambaceres, was recently confined. After the delivery she asked to see her husband, but was told that he had been sent for on urgent affairs. Two days elapsed without seeing him, and hearing a noise in an adjoining room, she tottered through the door and beheld her husband lying on a bier dead, with lighted wax candles on each side. She fell senseless, lost her reason, and her life is now in great danger.

Tailleper, the great Parisian swindler, who embezzled 15,000,000 francs, spent over 3,000,000 in presents for his mistress, formerly a ballet-girl at one of the suburban theatres.

European Items.

Blanc, the proprietor of the Hamburg and Monaco gambings hells, is worth 60,000,000.

The French public debt has been increased since 1852, \$861,300,000.

Madame Walewski is writing a book which she calls the Book of Widows.

A man in Portugal has invented a machine which fires 800 shots a minute.

A grand niece of the Duchess d'Abrantes, Marshal Junot's wife, is now a member of the Parisian *demi monde*.

A large portion of the estate of the late Baron Rothschild was invested in United States bonds.

Bismarck's sister, the Baroness Arnim, though 42 years old, is yet the handsomest lady of the Prussian aristocracy.

According to a recent report of the French Minister of Justice, there are five Americans, one of whom is a colored man, in French penitentiaries.

It is reported in Germany that Rosenkold, the Swedish Naturalist, and his wife have been shot in Paraguay, by order of Lopez.

The British Parliament has been memorialized for the passage of a law making it illegal to shear sheep—except in case of immediate slaughter, before the first of May.

The Holy Father was born at Sinigaglia, Central Italy, on May 13, 1772; so that on the 13th of last month he would enter on his seventy eighth year.

The Emperor of Austria has sent decorations to Dr. Peterman and Captain Koldewey for the part they took in the late expedition to the North Pole.

Friendly relations have been re-established between the Cabinets of St. Petersburg and Berlin, and friendly autograph letters have been exchanged between the two Monarchs.

Gen. Melnikow, Minister of Public Works to the Russian government, has been notified to resign, on account of the faulty construction of the railroad between Kursk and Kiev.

Frauds to the extent of several millions of francs have been discovered in several branches of the tobacco department in Italy, and several employees have fled, leaving important defalcations.

The Paris correspondent of the German and Belgian papers give rumors that Adeline Patti is going to apply for a divorce from her husband, who she has found out, is an inveterate gambler, and is spending money faster than she can make it.

The authoress of the *Heir of Radcliffe*, Miss Younge, has gone to Paris to consult several psychiatrists. The lady has recently upon several occasions shown unmistakable signs of insanity.

A dispatch from Rome, dated April 13, sets forth that the Pope received on the previous day, more than fifty telegrams of congratulation from the principal dioceses, convents or Catholic communities abroad. The Nuncio of Madrid had forwarded the compliments of the chiefs of the Spanish Government. His Holiness had thanked the Diplomatic Body, which, through the Marquis de Balmville, its elder, had asked to be present at the mess on the 11th. The director of the Pontifical telegraphs had left for Florence to come to an arrangement with his Italian colleagues, and to settle the accounts of the two Administrations. The *Giornale di Roma* states that the Holy Father had received friendly messages from all the Sovereigns, from the Queen of England, the Emperor of Russia, the King, Queen, and Prince Royal of Spain, the Empress of Mexico, the King of Wurtemberg, the Grand Duke of Tuscany and Mecklenberg-Strelitz.

LOUISVILLE, June 11.—The remains of Lieutenant P. J. Farrell, an officer of the Fenian organization were refused the burial rites of the Roman Catholic Church. The Fenian Brotherhood appeared in the church in regalia, and the body was taken from the church and followed to the cemetery by a large concourse of Fenians. This action of the priest has caused a profound sensation.

MR. G. LEWIN SMITH has written a very silly letter to the *Beehive* in which he says Mr. Sumner's speech has revived hostility to England, and that, although he does not expect a rupture, still emigrants will do well to remember that there may be a change of feeling in America which will compel Englishmen to quit the country. Mr. Sumner's speech does not produce, but only expresses, a long-standing hostility; and as to the emigrants, they would be as safe in war as anybody else. The Americans would no more attack Englishmen resident among them than we should attack Americans. Why in the world should they, when their visitors are increasing their power of carrying on the contest?

LATELY, as the last train from Manchester and Liverpool reached Sowerby Bridge, a suppressed cry was heard which appeared to come from under the seat. The attention of the station master was called to the circumstance, and on looking under the seat he found a carpet bag, locked, with the key tied to the handles by a piece of cord. In the bag was a pretty looking male infant, apparently about six weeks' old, and an infant's feeding-bottle, the maker's name, "Edward Taylor, Salford, Manchester." The infant, which was well dressed, was in a very exhausted state, as laudanum had been administered.

COLONEL CHAMN, forty-three years old, twenty-five inches high, and weighing twenty-five pounds, is visiting Charlottesville, Va. His brother, six feet four inches tall is with him.

MADAME ELIZA LYNCH, the companion of President Lopez, of Paraguay, was wounded in the neck and left arm by musket balls during the recent battles.

CHEAP SHAVING.—Having recovered his health, Fred Payne's shop is again open to the public. Prices as before.

A New Sensation—A Volcanic Island Arises in the Middle of the Sea.

The following interesting memoranda are furnished us by Captain Nickerson, of the ship National Eagle, which arrived in port yesterday morning from Hongkong, having made the run in forty-four days—a very excellent passage. May 6th, (seventeen days out)—This day was very moderate, with the wind from northwest, and fine weather. At half-past 4 a. m. made Smith Island—one of the group of islands south of Yeddo Gulf, Japan, which is in latitude 31 deg. 18 min. north, longitude 139 deg. 50 min. east. At the time we saw a very large column of smoke rising out of the water, about half a point to the northward of the island. Upon nearing it, found it to be a volcano, and also that there was an island—consisting of a mass of rocks about fifty feet high, and extending northeast and northwest—rising out of the water. There was also a streak of muddy water about a mile wide, extending about 5 miles N.W. from the newly-formed island. This island bears N. by E. ½ E., and is 5 miles distant from Smith Island. We walked about midway between the two islands, and when abreast of the volcano could hear it rear fearfully. It was sending up a dense mass of smoke and steam, which apparently attained about the height of 1000 feet. The rocks must have been very hot, for when the surf rolled in upon them a heavy column of steam would rise up above them, and was accompanied by a fearful hissing sound. We could also see steam and smoke rising from a reef about a quarter of a mile N.W. from the island. Had it not been that we were so near Smith Island, we would have sent a boat and sounded—but the position of that island being correct on the chart, it was hardly necessary to do so.—S. F. Call.

THE New York Herald's correspondent in England indulges in this bit of gossip about the Duke of Hamilton:—"The Duke of Hamilton persists in his determination of averting himself for the slight put upon him by the Jockey Club in blackballing him, by retreating from the English turf. He will accordingly sell off his stud in the week after the Derby, reserving only the flying 'Leonie' for stud purposes. He has been down at Newmarket a week, riding about on his own during the races, and either avoiding or avoided by the majority of the English swells. His figure, one of the best known on the English turf—for though he is only 24 years of age he weighs, I should think, 220 pounds, is six feet high, has a purple face like a coachman's, the whole surmounted by a tremendous shock of red hair—will be missed from Newmarket, as will also his horses. He ran them fairly and supported them handsomely, and, despite his character, he will be a real loss to the English turf. After all, what is to be said in favor of most of the men who rejected him?"

A junior student at the Cornell University in rendering an account to his father of his last term's expenses, entered as an item "Charity, \$30." His father wrote back, "I fear that charity covers a multitude of sins."

ONE of the editors of the Paris *Siecle* recently committed suicide on being told that his brother's illness was mortal. He stabbed himself, except to his brother's bedside, and died there. Both the brother and the editor were well known.

IMPORTANT CAUTION.—The unprecedented success of Rowlands' Macassar Oil during the last half century in promoting the growth, restoring and beautifying the human hair, has caused imitators to spring up in every possible variety; some so far copy the label as frequently to deceive the unwary; some offer to dispose of the recipe of a Macassar Oil (omitting Rowlands' name), with other recipes of a similar character for a few postage stamps, whilst others profess to manufacture the real (?) article at a considerably reduced price, if the public will only purchase it. Indeed, the name of these wretched purveyors from cheap and trashy receipt books is "Legion," and calls for more than usual care on the part of the purchasers in their selection of articles for the toilet. Messrs. Rowlands have complaints repeatedly from parties who have materially suffered from the use of these trashy compounds; and to frustrate to some extent such impositions, purchasers should see that Rowlands' name is on the wrapper of each bottle.—Daily Telegraph.

Thousands of Rosy Lips

Attest the many virtues of the genuine MURRAY & LAMMAN'S FLORIDA WATER. Matches as a perfume it is equally matchless as a cosmetic allaying the irritation of the skin, relieving headache preventing faintness, and when diluted the best of tooth-washes. Truly it is the most valuable of all floral waters.

As there are counterfeiters, buyers should always ask for the Florida Water prepared by the sole proprietors Lamman & Kemp, New York.

We have the Proof!

That Bristol's Sarsaparilla and Pills are reliable and certain remedies for heart disease, rheumatism, dyspepsia, liver complaint, an scrofula in all its different forms and stages. Physicians of the highest standing have testified to these facts, and we invite all who entertain doubts to read our Bristol's Almanac circulated free in this country, wherein are published the certificates in full.

The Supreme Court of the State of N. Y. have issued a perpetual injunction against Eaton and Jenkins for counterfeiting Ayer's Cathartic Pills holding them responsible for the cruel imposition in what they have done and restraining them from further like injury to the public. If any class of our people more than another needs the interposition of law to shield them from imposture, it is the sick and suffering who are unable to protect themselves. A remedy so universally employed as Ayer's Pills by all classes, both to cure and prevent disease, should as it does, have every security the law can afford it, from counterfeit and imitation.—Cabinet, Schenectady.

ROWLANDS' three great preparations for the hair, the complexion, and the teeth, are known in all quarters of the globe. Their famous "Macassar Oil" has been counterfeited in France, Germany, and elsewhere, but none of the spurious preparations have possessed the extraordinary properties of the genuine article. Rowlands' "Kilydor" for the complexion has retained its prominent place among fashionable cosmetics notwithstanding the numerous new articles introduced for the complexion. The "Odonto" for the teeth is highly prized by thousands who have used no other dentifrice for years. Rowlands' great success during the past two generations, and their present prominent position as manufacturers, may justly be attributed to the excellent character of their articles, and to the fact that unlike many other proprietors of established fame, they do not allow their cosmetics to deteriorate in quality.

A. GILMORE, Tailor, wishes to inform his friends and the public that he is selling off the balance of his winter stock at cost to make room for spring goods.

General Debility is Nature's Appeal for Help.

Thousands of persons, without any specific ailment, are the victims of languor and lassitude. The unthinking are apt to confound this species of inertia, with laziness; whereas it usually arises from a want of organic energy for which the subjects of it are no more responsible than the near-sighted are for their defective vision. Such persons, although they may be free from pain, are as truly invalids, and as much in need of medical aid, as if they were tormented with the pangs of acute disease. They require a tonic and ALTERNATIVE, that will rouse and regulate their torpid organizations. In cases of this kind, HOSTETTER'S STOMACH BITTERS produce an immediate and most favorable effect. The debilitated and desponding valetudinarian, who feels as if he were but half alive; who shuns company, has no relish either for business or pleasure, is metamorphosed, by a brief course of this most potent vegetable invigorant, into quite a different being. The change effected by the BITTERS, in his bodily and mental condition is a surprise to himself and to his friends. He mopes no longer; the active principle of life which seemed to have died out of him is re-awakened, and he feels like a new man. Remembering that debility is not only an affliction itself, but an invitation to disease, no time should be lost in recruiting the broken-down system with this choicest and most potent of all TONICS AND NERVINES.

HOLLOWAY'S OINTMENT AND PILLS.—Old Wounds, Sores, and Ulcers.—Daily experience confirms the fact which has triumphed over opposition for thirty years—viz, that no means are known equal to Holloway's remedies for curing bad legs, sores, wounds, diseases of the skin, erysipelas, abscesses, burns, scalds, and, in truth, all cases where the skin is broken. To cure these infirmities quickly is of primary importance, as the compulsory confinement indoors weakens the general health. The ready means of cure are found in Holloway's Ointment and Pills, which heal the sores and expel their cause. In the very worst cases, the Ointment has succeeded in afflicting a perfect cure after every other means has failed of giving any relief. Desperate cases best display its virtues.

Auction Sales

AUCTION.

Janion, Rhodes & Co.

WILL SELL

ON THEIR PREMISES,

Monday June 21 1869

AT 11 O'CLOCK, A. M.

HOSTETTER'S

CELEBRATED

STOMACH BITTERS!

A PURE AND POWERFUL TONIC;

CORRECTIVE AND ALTERNATIVE

Of Wonderful Efficacy in Diseases

OF THE

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Bilious Remittent Fever

Fortifies the System against Malaria and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous

Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.
Persons of feeble habit, liable to Nervous Attacks, Loss of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.
In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of a attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of the marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretory organs.
